

Annual **Report.**

2RESTORED

Since 2007 2Restored has served thousands of couples and families using cognitive therapy and proprietary tools rooted in a biblical framework. Our resources empower couples to communicate effectively, resolve conflicts peacefully, and create loving home environments for families.

Current Focus Areas

Faith-Based Discernment Counseling Training

This training equips counselors, pastors, and ministry leaders with a biblically-grounded, clinically-informed approach that reduces premature divorce decisions and early counseling dropout.

The 2Restored Playbook

The Playbook supports healthier communication, conflict resolution, and emotional awareness and can be used by churches, small groups, and ministry leaders as both a preventive and restorative tool.

Training & Resource Development

2Restored develops online curricula, workbooks, video training, and supplemental tools to equip churches, counselors, and lay leaders to address relational and emotional health within a Christian framework.

2Restored Clinic Network

To realize the dream of touching 2,000 marriages over the next 5 years, we are actively building partnerships across ministry domains and training pastors and counselors in all of our 2Restored products: the ROADS Personal Awareness Inventory, Playbook, and Faith-Based Discernment Counseling.

2RESTORED.

Multiplying Strategy

Over the next five years, our multiplying strategy is projected to touch 2,000 marriages and families through 2Restored and our network of partner churches, universities, and ministries. We are inviting donors to invest in this next phase of growth — training, equipping, and sending out a generation of counselors and mentors who will carry this work far beyond what our team could accomplish alone. With that in mind, 2026 had significant measurable success towards that end.

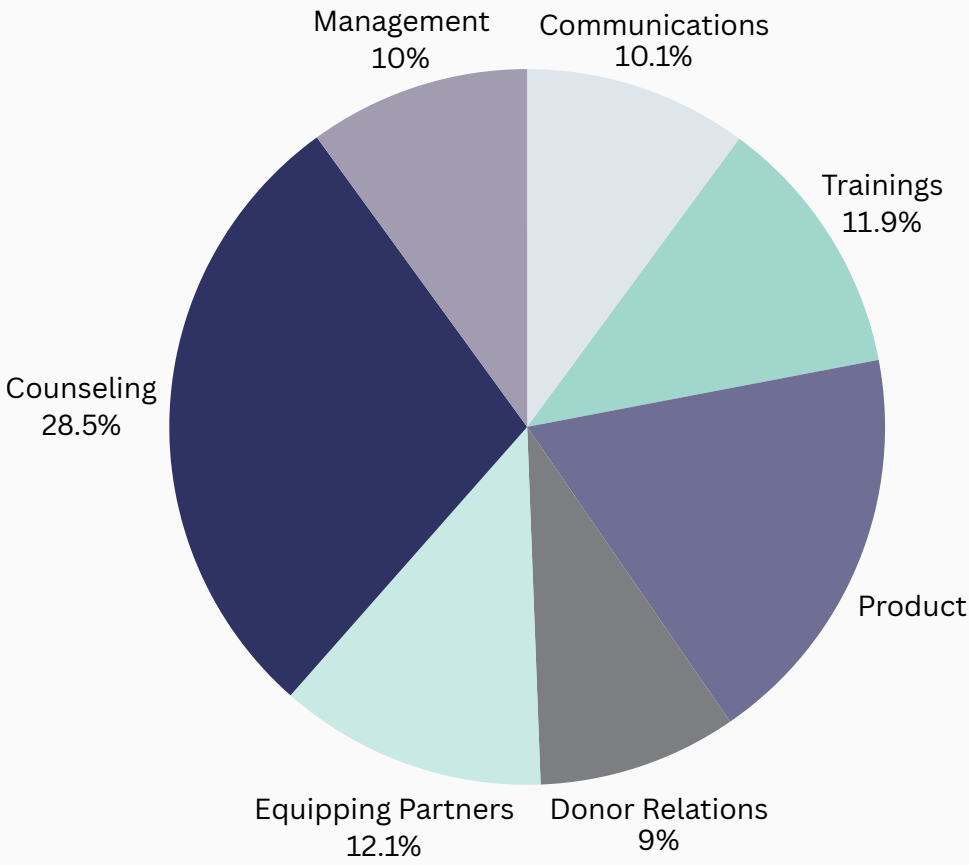

2026 Measurables

- **Hosted 2 marriage retreats using 2Restored resources & had multiple teaching and preaching engagements on the topic of marriage.**
- **Prepared the Faith-Based Discernment Counseling (FBD) training for launch and partnered with three churches using Re|engage marriage mentorship. By integrating FBD into church intake processes, couples considering divorce can pause, clarify next steps, and determine whether to pursue counseling.**
- **Developed the 2Restored Network to connect trained clinicians and strengthen referral pathways for couples in crisis.**
- **Expanded partnerships with churches, ministries, and Christian graduate programs.**
- **Improved virtual access to counseling through SimplePractice, a HIPAA-compliant platform supporting scheduling, client intake, telehealth, billing, secure records, and clinical care.**
- **Advanced international leadership training in partnership with Savior's Mission International to equip Christian leaders serving families in rural Pakistan. Served 200 families in marriage and family retreats.**
- **Completed the ROADS Personal Awareness Inventory, our in-house tool for assessing development in communication and relationships, emotional regulation and mindset, and goal setting and boundaries. It helps us provide more personalized, insightful, and effective client support.**
- **Completed the Playbook resource and began implementing it in small groups with Union City Chinese Bible Church. Its practical, faith-based tools help participants manage emotions, communicate clearly, resolve conflict, and strengthen relationships.**

President's Message

George Kenworthy
Founder, President

Since launching this ministry in 2007, I have often been asked whether we provide marriage counseling. Unfortunately, we have rarely had the capacity to help directly, so we have recommended qualified counselors instead. It has always been painful for me to see the disappointment of couples who asked us for help, but we could not meet their most urgent needs.

Beginning in January 2027, we plan to hire a counselor to expand access to marriage and family counseling and meet growing client demand. The role will also strengthen our network of trained contract counselors and ministry partners, extending the reach of 2Restored's resources and services. This added capacity will support long-term program growth, leadership continuity, and greater impact for couples and families.

What especially encourages me is that we are developing partnerships with several young pastors eager to expand their discernment counseling skills so they can better support couples and families in their churches. That will multiply our impact significantly, creating additional referrals for 2Restored. That's just the beginning. Our dream is to continue to hire more counselors.

We have developed a business model where each new hire will be self-sustaining. That's right. We will not need to raise money to support this part of our vision! The money we raise then can go to support our growing pro bono work around the world and assist the increasing list of churches that are asking for our help.

Does that motivate you? I hope so! We still need your support to accomplish our dream to provide resources to couples and families who desperately need our service. Together, with your support, 2026 has been an incredibly fruitful year, and I can't wait to see what is in store for 2027.

Thank You!
